If, due to circumstances outside the Company's control, a vessel does not commence loading five (5) calendar days following the original vessel ETA (as notified by the Client to LDC), an initial carry charge of \$1.50/mt is applicable. This carry charge will then apply every seven (7) calendar days from the initial carry charge until the vessel commences loading.

Fumigation – applies to shrunk tonnes

This charge applies to the capacity of a storage unit (cell, shed, bunker) in which the Grain is to be fumigated, not the tonnage of Grain received and stored, where:

- i. a Client requests a fumigation;
- ii. Live grain insects or any insect subject to quarantine or export restrictions are detected at any stage either during the Receival process, while in storage, during or after the loading of the grain onto export vessels, shipping containers or road transport; and

Falling Number Test

Applies to any load of Grain requiring the use of the “falling number test” method to determine or confirm the grade. Testing may be applied at LDC discretion to loads exhibiting signs of weather damage including shot and sprouted grains or where in the sole opinion of the Company the testing is necessary to ensure the quality integrity of grain being accumulated.

Vessel Failed Survey

Applies where the vessel fails to pass marine or DoA survey and is subsequently unable to load as per planned ETA. This fee is waived where there is no delay to accumulation or shipping program.
